## Part 1: GUIDELINES FOR APPLICANTS - INTRODUCTION

## 1.1 About the Pacific Community (SPC)

The Pacific Community (SPC) is the principal scientific and technical organisation of the Pacific region, established by treaty in 1947 with the signing of the Agreement Establishing the South Pacific Commission (the Canberra Agreement).

SPC has our headquarters in Noumea, New Caledonia and has regional offices in Fiji, the Federated States of Micronesia and Vanuatu, as well as offices in the Solomon Islands and France. SPC works across the Pacific and has staff in nearly all of our Pacific Island Country and Territory members.

SPC works for the well-being of Pacific people through the effective and innovative application of science and knowledge and is guided by a deep understanding of Pacific Island contexts and cultures. Our unique organisation covers more than 20 sectors and is renowned for knowledge and innovation in such areas as fisheries science, public health surveillance, geoscience and conservation of plant genetic resources for food security.

For more information about SPC and the work that we do, please visit our website: <a href="https://www.spc.int/">https://www.spc.int/</a>.

## 1.2 SPC's grant activities

SPC's grant activities are guided by the principles of **high ethical standards** (accountability and transparency, freedom from perceived impropriety and influence, no conflicts of interest, confidentiality and proprietary information), **risk management** and **social and environmental responsibility** and are carried out under our **Grant Policy**.

SPC's *Grant Policy* provides the framework for ensuring that SPC ensure integrity and compliance with international standards along the grant process; demonstrates financial probity and accountability to its members and development partners; manages and prevents the potential for conflicts of interest and manages any other risks.

At SPC, a grant may be used to:

- a) enable an implementing partner to deliver activities or outcomes under a project or programme;
- b) develop the capacity of implementing partners;
- c) deepen the partnership with an implementing partner and build co-ownership of the outcomes.

Different procedures apply depending on the nature of the grant, the objective of the overall project, the requirements of SPC donors and the potential partners identified.

Any grant awarded by SPC must comply with the following principles:

- **Co-financing**: applicants must support the implementation of actions either by contributing their own resources (i.e. staff time) or by providing funding from third parties (in the form of public or private assistance obtained elsewhere).
- **Non-retroactivity**: In no circumstances will SPC award a grant for actions that are already completed.
- **Non-cumulation**: the total amount awarded in the grant agreement is a maximum amount. The amount cannot be increased or accumulated in any circumstances.
- No-profit rule: no grant may give rise to profits (i.e. income and expenditure for the
  action must balance). The no-profit rule applies to the action and not necessarily to the
  grant beneficiary.

For further information or enquiries about SPC's grant activities, please visit the procurement pages on our website: <a href="https://www.spc.int/grants">https://www.spc.int/grants</a> or email: <a href="mailto:grants@spc.int">grants@spc.int</a>.

# 1.3 SPC's Call for Proposal (CFP) Process

At SPC, grants can be awarded to implementing partners through a competitive call for proposals which can take two forms:

- Single-stage competitive grant modality (single-stage CFP)
- Multi-stage competitive grant modality (multi-stage CFP)

A single-stage CFP is an open and public invitation to entities working in the field covered by the CFP and seeking funding for the implementation of their action. Applicants responding to the CFP will have their proposals assessed by SPC in accordance with the terms of the CFP and will be awarded a grant if their project meets the requirements set out in the CFP and depending on the funds available.

A multi-stage CFP awards a grant through pre-qualification of applicants on the basis of calls for expressions of interest (EOI), and then provides for a capacity development stage - proposal design and submission - during which SPC supports applicants that have met the EOI criteria, followed by a formal call for proposals.

The multi-stage CFP provides a fair chance for small organisations with limited capacity (e.g., community-based organisations, the informal sector, etc.) to access grants through a process that allows them to receive support in preparing proposal documents and submission.

This CFP is a multi-stage CFP (refer to section 4.1 - 5) that sets out SPC's requirements for a project to be eligible. This CFP asks you, as an applicant, to submit your proposal in a prescribed format, trying to be as detailed and precise as possible and not omitting to attach the requested supporting documents.

The CFP contains detailed instructions and templates to enable you to submit a compliant proposal. It sets out the overall timetable; it confirms the evaluation criteria that SPC will use to evaluate proposals; it explains the administrative arrangements for receiving proposals and indicates how applicants can request further information.

Your participation confirms your acceptance of SPC's conditions of participation in the CFP process.

## Part 2: GUIDELINES FOR APPLICANTS – GENERAL INSTRUCTIONS

## 2.1 Background

SPC invites you to submit your project proposal in order to be eligible for a grant to contribute to its funding and implementation in accordance with the provisions set out in <u>Part 3</u>.

SPC has advertised this CFP on its website and may send it directly to pre-identified potential applicants. The same conditions and submission requirements will be requested from all applicants.

SPC has compiled these instructions to guide potential applicants and to ensure that all applicants receive equal and fair consideration.

Please read the instructions carefully before submitting your application. In order for your proposal to be considered, you must provide all prescribed information by the closing date and in the specified format.

#### 2.2 Submission instructions

Your proposal must be clear, concise and complete and must include only the information necessary to respond effectively to the call for proposals. Please note that you may be downgraded or excluded from the grant award process if your submission contains ambiguities or lacks clarity.

Your proposal must include the following documents which form Part 5 of the CFP:

- a. Annex 1: Application Form [Concept Note];
- b. Annex 2: Budget, with supporting documents for the budget
- c. Annex 3: SER questionnaire
- d. Annex 4: Project risk identification form
- e. Annex 5: Applicant declaration
- f. Annex 6: Conflict of interest declaration

Your proposal must contain all supporting documents and be submitted in English in as a single attachment by email to <a href="mailto:grants@spc.int">grants@spc.int</a> with the following subject line: **CFP23-319**.

All applications submitted must be in Word or PDF formats. Please note the maximum capacity for an email sent to SPC mailboxes is 25Mb.

Your proposal must be received no later than 30/06/2023 and by 4PM Fiji Time.

SPC will send an official acknowledgement of receipt to each proposal received by the closing date.

SPC reserves the right to exclude from consideration any proposal not received by the deadline, with incomplete information or in incorrect form.

## 2.3 Clarifications

You may submit questions or seek clarifications on any issue relating to this CFP. The questions are to be submitted in writing to <a href="mailto:grants@spc.int">grants@spc.int</a> with the subject line: Clarification CFP 23-319. The deadline for submission of clarifications is 16/06/2023 and by 4PM Fiji Time.

Details will be kept of any communications between SPC and applicants. This assists SPC to ensure transparency of the grant award process. While SPC prefers written communication in the CFP process, at any point where there is phone call or other conversation, SPC will keep a record or a file note of the exchange with applicants.

## 2.4 Evaluation

## Preliminary checks

Each proposal received will be assessed by SPC for compliance with the eligibility criteria and submission requirements set out in this CFP.

To assist in the examination, evaluation and comparison of proposals, SPC may ask the applicant for clarification of its proposal or additional information. The request for clarification will be in writing.

If a proposal is responsive (it conforms in all material respects to the requirements set out in the CFP), it will proceed to evaluation. If a proposal is found not to be responsive, it will be excluded from further evaluation.

## Due diligence, capacity, and risk assessments

SPC will carry out due diligence on the shortlisted applicants to verify the information provided in the application form. Capacity and risk assessments will also be undertaken for all shortlisted applicants to determine their ability to manage a grant in accordance with the requirements set out in this CFP and in accordance with the provisions of SPC's *Grant Policy*.

These assessments may be carried out at the applicant's premises or remotely. Shortlisted applicants will be notified prior to the commencement of due diligence and capacity and risk assessment activities. By applying, applicants agree to participate in these due diligence and capacity assessment processes.

The outcome of these assessments will be used to support SPC's Evaluation Subcommittee and Procurement Committee with their decision making.

## Proposal evaluation

All responsive proposals will be assessed against the evaluation criteria set out in <u>Part 4</u>. The criteria are provided with weighted scores according to the relative importance of each. SPC will not change the evaluation criteria set out in the CFP at any stage of the grant process.

The evaluation of the proposals is carried out in two stages:

- In the first stage, all proposals will be evaluated in accordance with the evaluation criteria set out in <u>Part 4</u>, by a dedicated Evaluation Subcommittee which will propose a ranking of all proposals received.
- In the second stage, the Procurement Committee will make the final evaluation of the applications, taking into account the ranking established by the Evaluation Subcommittee, the findings of the respective capacity assessments of the applicants, and the overall value of grants to be awarded.

Following the evaluation of all proposals, SPC may, without limiting the other options available to it, decide not to proceed with the CFP process or to launch a new CFP process on a similar or different basis to that described in this call.

#### 2.5 Grant award

SPC may award one or more grants to one or more beneficiaries upon the decision of the Procurement Committee and subject to availability of funds. The award of a grant is made by signing a grant agreement.

Details of grants that have been awarded will be published on the SPC website (including the title of the contract/agreement/project, nature and purpose of the contract/agreement/project, name and locality of the grantee, amount of the contract/agreement/project, the start and end dates of the activity and the geographical scope of the activity).

Unsuccessful applicants will be notified, and feedback will be provided on their submissions if requested.

SPC's standard terms and conditions for grant agreements (<u>Part 6</u>) will apply to any grant awarded under this CFP, unless otherwise agreed. Any requested changes to the standard terms and conditions for grant agreements must be foreshadowed in the submission.

# 2.6 Key dates

Please see the proposed grant timetable in the table below. This timetable is intended as a guide only and while SPC does not intend to depart from the timetable, it reserves the right to do so at any stage.

Child and vulnerable adult protection: SPC is committed to the well-being of children and vulnerable adults. All SPC grantees are required to commit to the principles of SPC's Child and Vulnerable Adult Protection Policy (XI.G Manual of Staff Policies). Breach of this requirement can result in SPC terminating any grant agreement with a grantee. Any allegations of potential misconduct in relation to this CFP involving children or vulnerable adults should sent to <a href="mailto:complaints@spc.int">complaints@spc.int</a>.

**Confidentiality:** Unless otherwise agreed by SPC in advance or where the contents of the CFP are already in the public domain when shared with the applicant, applicants shall at all times treat the contents of the CFP and any documents related to the grant award process as confidential. Unless clearly indicated otherwise, such as for 2.5 above, SPC will treat the information it receives from the applicants as confidential during the entire grant award process.

**Conflict of interest:** Applicants must take all necessary measures to prevent any situation of conflict of interest. You must notify SPC in writing as soon as possible of any situation that could constitute a conflict of interest during the CFP process. If you have any familial connection with SPC staff, this must be declared, and approval will then be sought for you to engage in the grant award process. If the project is selected, the total amount of the grant mentioned in the grant agreement is a total and final amount. Under no circumstances may the beneficiary request an increase or accumulation of the amount of the grant awarded. No price variation due to escalation, inflation, exchange rate fluctuations or any other market factor can constitute a valid justification for requesting an increase in the amount. If additional funding is required, a new grant process must be initiated.

**Eligibility:** Applicants are required to disclose to SPC whether they are subject to any sanction or temporary suspension imposed by any international organisation, or whether they are subject to bankruptcy proceedings. You may not be bankrupt or suspended, debarred, or otherwise identified as ineligible by any international organisation. Failure to disclose such information may result in debarment and termination of any grant agreement issued to the grantee by SPC.

**Fraud and corruption:** SPC has zero tolerance for fraud and corruption. All grantees have an obligation to report potential fraud and corruption. Breach of this requirement can result in the exclusion of the applicant from the CFP process or in SPC terminating any grant agreement with a grantee. Allegations of potential

misconduct by an SPC staff member or applicant involving fraud or corruption can be sent to <a href="mailto:complaints@spc.int">complaints@spc.int</a>.

**Good faith:** The information in this CFP is provided by SPC in good faith. **Modifications**: Any clarifications, corrections or modifications will be published on the SPC website prior to the deadline. In the event an applicant has submitted a project before the clarification, correction or modification, the applicant will be informed and may modify its proposal. The modified proposal will still need to be received before the deadline.

**No offer of a grant:** This CFP does not constitute an offer of a grant or an invitation from SPC to enter into a grant agreement with you.

**Privacy:** The applicant is to comply with the requirements of applicable legislation and regulatory requirements in force for the use of personal data that is disclosed for the purposes of this CFP. SPC will handle any personal information it receives under the CFP in line with its Grant Policy, <u>Privacy Policy</u>, and the <u>Guidelines for handling personal information of bidders and grantees</u>. Applicants understand that their proposal and their personal information will be stored and used by SPC in accordance with these policies and guidelines.

Right to amend, seek clarity, withdraw, not award: SPC reserves the right to: (1) amend, add to or withdraw all or any part of this CFP at any time, or to re-invite applicants on the same or any alternative basis; (2) seek clarification or documents in respect of any applicant's proposal; (3) choose not to award a grant as a result of this CFP; (4) make whatever changes it sees fit to the timetable, structure or content of the grant process, depending on approvals processes or for any other reason. Please note that while SPC will not change the evaluation criteria set out in the CFP without the CFP process being re-issued, SPC does reserve the right at the time of award of a grant to vary the requirements for the project to be implemented by the grantee specified in the CFP and to accept or reject any proposal at any time prior to award a grant without incurring any liability to the affected applicant or any obligation to inform the affected applicant(s) of the grounds for SPC's action.

**Right to disqualify:** SPC reserves the right to disqualify: (1) any applicant that does not submit a proposal in accordance with the instructions in this CFP; (2) any applicant that misrepresents information to SPC; (3) any applicant that directly or indirectly canvasses any SPC employee concerning the award of a grant.

All assets procured under the grant agreement will need to be managed and disposed of in accordance with the terms of the grant agreement.

# Part 4: GUIDELINES FOR APPLICANTS - ELIGIBILITY CRITERIA FOR RECEIVING FUNDS

## 4.1 Eligibility criteria

Applicants must meet the following eligibility criteria to qualify for support:

- The applicant must be an enterprise (business, non-government organisation, organisation engaged with farmers, processors, exporters, associations or provider of support services) engaged in aquaculture. This includes enterprises engaged in allied downstream processing or specialized input supplies (feed, seed, etc.) in these industries.
- 2. The enterprise is one that will contribute to improved incomes, livelihood opportunities or food security and living standards of Pacific Island nationals. The enterprise will contribute towards youth employment and women's economic empowerment and the protection of children's rights.
- 3. The enterprise is in a sound financial position, is currently in production of the target commodity at the time of application or is committed to the start-up of production of a new aquaculture commodity.
- 4. Preference will be given to enterprises that (i) have a sound business model and a business plan, as well as (ii) demonstrable potential for growth in a structured and sustainable way through its performance.
- 5. Notwithstanding (4), and pursuant to section (1.3), consideration will be given to enterprises that meet criterion (4)(ii) but are below par in (4)(i), because one characteristic of Pacific agro-business is that numerous enterprises have good ideas and production capabilities but lack the business literacy skills to make them bankable enough to grow the business. Such applicants will be considered for project support to receive training and mentoring in business literacy and business plan preparation, as a preliminary step to render them "application ready" under (4).
- 6. The enterprise is Pacific-owned or local subsidiary, registered with the Registrar of Companies or equivalent national agency in the eligible Pacific Island Countries.
- 7. Applicants must complete the application form and checklist. Only one application must be received for an enterprise.

## Note:

\* Financial reports from 2021 -2022 will be accepted.

## 4.2 Eligible actions

Applicants can submit a proposal for support in any aquaculture/ mariculture commodity and/ or support industries to the aquaculture sector.

There are three general areas for support:

- 1. Business mentoring and training;
- 2. Capacity building in feed, seed and broodstock management; and
- 3. Technology transfer for best practice in feed, seed and broodstock management

The following actions can be eligible under this grant:

- Certification
- Product development
- Technical support in feed, seed and broodstock management
- Business mentoring
- Capacity building through training and workshops

## 4.3 Eligibility of costs

No funding will be awarded directly to successful applicants and no costs will be reimbursed to successful applicants under this project.

Applicants must, as part of the grant application, be able to show that they will be in a position to make a financial and/or non-financial contribution of 40% of the value of the total grant awarded. This is the applicant's contribution to co-funding the grant action.

All proposed contributions from applicants will be reviewed and verified as part of the due diligence process. Applicants must be able to objectively evidence that their contribution is 40% of the value of the total grant awarded by SPC. Financial contributions will typically need to be made by the applicant in advance of SPC purchasing goods or services. Financial and/or non-financial contributions must contribute directly towards the activity being proposed and must be supported by documents objectively evidencing the applicant's 40% contribution.

SPC will in its sole discretion determine whether a contribution proposed by an applicant meets with the requirements set out above. Applicants are encouraged to enquire with SPC, in advance of submitting their application, if they have any uncertainty as to whether their proposed contribution will meet with SPC's requirements.

SPC will, following the award of a grant and receipt or approval of the successful applicant's 40% cofinancing contribution or verification and approval of the applicant's 40% non-financial contribution, purchase the goods and/or services awarded to the successful applicant, subject to such costs being:

- Necessary for the implementation of the action
- Reasonable and justified and in line with the usual practices of the enterprise, regardless of the source of the funding

#### **ANNEX 6: Conflict of Interest Declaration**

# **INSTRUCTIONS TO APPLICANTS**

## What is a conflict of interest?

A conflict of interest may arise from economic or commercial interests, political, trade union or national affinities, family, cultural or sentimental ties, or **any other type of relationship or common interest between the applicant and any person connected with SPC** (SPC staff member, consultant or any other expert or collaborator mandated by SPC).

# Always declare a conflict

The existence of a potential or apparent conflict of interest does not necessarily prevent the applicant from taking part in a grant process. However, the declaration of the existence of such a conflict by the persons involved is essential and allows SPC to take appropriate measures to mitigate it and prevent the associated risks.

Applicants are therefore invited to declare any situation, fact or link which, to their knowledge, could generate a real, potential or apparent conflict of interest.

## Declaration at any time

Conflicts of interest may arise at any time during the grant award process or the implementation of a project (e.g. new partner in the project) or as a result of a change in personal life (e.g. marriage, inheritance, financial transaction, creation of a company). If such a relationship is found and could be perceived by a reasonable person as likely to influence a decision, a declaration of the situation is necessary. In case of doubt, a conflict situation must be declared.

## Declaration for any person involved

A declaration must be completed for each person involved in the application process (principal representative of the applicant, possible partners, etc.).

### *Failure*

Failure to declare a potential conflict of interest may result in the exclusion of the applicant from the process or the non-award of a grant.

## **DECLARATION**

I, the undersigned,	[name of the	representative of	the applicant],	acting in the	name and on	behalf o	of the
organisation [name	of the entity],	declare that:					

To my knowledge, I am not in a conflict-of-interest situation
