

# Climate Change Flagship (CCF)

## At a glance

## Objectives

**Climate change and disasters ambition in the 2050 Strategy for a Resilient Pacific:**  
All Pacific peoples remain resilient to the impacts of climate change and disasters and can lead safe, secure and prosperous lives. The region continues to play a leadership role in global climate action.

### CLIMATE CHANGE FLAGSHIP'S INTENDED IMPACT BY 2031

Pacific peoples, in all their rich diversity, are more resilient and adept at adapting to climate change and thrive in sustainable, low-carbon societies.

Climate actions dimensions			
Adaptation and resilience	Mitigation and just transition	Loss and damage and climate security	Climate finance

<p>Pacific peoples and communities, including their critical infrastructures, ecosystems, and services, have increased adaptation and resilience within the scope of SPC's mandate.</p>	<p>Pacific Islands countries and territories (PICTs) have accelerated low-carbon transition in an effective and affordable way, resulting in reduction and avoidance or sequestration of greenhouse gas emissions with the benefits of a green economy, resilient infrastructure, and energy security.</p>	<p>PICTs are effectively supported and capacitated to address, minimise, and avert climate change-related loss and damage, in particular across the areas of SPC's mandate.</p>	<p>PICTs are effectively accessing and utilising significantly scaled-up climate finance to fulfil their climate change priorities and commitment at all levels.</p>

### Collective Actions

CCFP undertakes specific, actionable initiatives called collective actions. These actions, which may involve contributions from one or more SPC divisions, are categorised into three types:

- Maintain
- Scale up
- Innovate/New initiatives

- Clarify SPC's climate change capabilities and align with member demands
- Enhance collaboration internally and with partners to support member needs
- Scale access to climate finance for enhanced climate action
- Tailor resource modalities to fit the unique circumstances of PICTs
