Answers to request for clarification RFP22-3414

Date: April 8 2022

1. 300TB as mentioned – useable? Or current production data?

300TB is aggregated and usable storage. Main sites are Noumea ~103TB and Suva ~134TB of fast/performance storage give or take depending on compression/dedup etc.

2. Year on year growth rate?

5% approximately per year on average for the past 4 years.

3. Total RAM requirement?

Around ~2TB per cluster/site.

4. 3 nodes as per the node specification provided may not be suitable to meet the storage requirements?

If not suitable please provide your recommendations.

5. Is rack space available with power etc.?

Yes.

6. Is the UPS large enough to protect the new load?

Yes our current load is only around 20%.

7. Is the backup in place to suit the new setup.

Yes we can obtain temporary expansion licensing from our backup provider.
