Part 1: INTRODUCTION

1.1 About the Pacific Community (SPC)

The Pacific Community (SPC) is the principal scientific and technical organisation of the Pacific region, established by treaty in 1947 with the signing of the Agreement Establishing the South Pacific Commission (the Canberra Agreement).

SPC has our headquarters in Noumea, New Caledonia and has regional offices in Fiji, the Federated States of Micronesia and Vanuatu, as well as an office in France. SPC works across the Pacific and has staff in nearly all of our Pacific Island Country and Territory members.

SPC works for the well-being of Pacific people through the effective and innovative application of science and knowledge and is guided by a deep understanding of Pacific Island contexts and cultures. Our unique organisation covers more than 20 sectors and is renowned for knowledge and innovation in such areas as fisheries science, public health surveillance, geoscience and conservation of plant genetic resources for food security.

For more information about SPC and the work that we do, please visit our website: <https://www.spc.int/>.

1.2 SPC's procurement activities

SPC's procurement activities are guided by the principles of high ethical standards, value for money, open competition and social and environmental responsibility and are carried out under our Procurement Policy.

SPC's *Procurement Policy* provides the framework for ensuring that SPC obtains the best value for its purchases, in terms of both cost and quality; demonstrates financial probity and accountability to its members and development partners; manages and prevents the potential for conflicts of interest; reduces its environmental impact and manages any other risks.

At SPC, all procurement follows the same main steps: planning; statement of needs; requisition; solicitation; evaluation; award; receipt; and payment. Different procedures apply depending on the value of the goods, services and works to be procured.

For further information or enquiries about SPC's procurement activities, please visit the procurement pages on our website: <https://www.spc.int/procurement> or email: procurement@spc.int.

1.3 SPC's Request for Proposal (RFP) Process

At SPC, procurement valued at more than EUR 45,000 must be advertised through a Request for Proposal (RFP) with any bids received evaluated by SPC's Procurement Committee to determine the offer that provides the best value for money.

This RFP sets out SPC's requirements and it asks you, as a bidder, to respond in writing in a prescribed format with pricing and other required information. The RFP contains detailed instructions and templates to enable you to submit a compliant bid. It sets out the overall timetable; it confirms the evaluation criteria that SPC will use to evaluate proposals; it explains the administrative arrangements for the receipt of the bids; and it sets out how bidders can request further information.

Your participation confirms your acceptance of SPC's conditions of participation in the RFP process.

Part 2: INSTRUCTIONS TO BIDDERS

2.1 Background

SPC invites you to submit a bid to deliver the services as specified in [Part 3](#).

SPC has advertised this RFP on its website and may send it directly to potential vendors. The same specifications, submission and other solicitation requirements will be provided to all vendors.

SPC has compiled these instructions to guide prospective bidders and to ensure that all bidders are given equal and fair consideration.

Please read the instructions carefully before submitting your bid. For your bid to be considered, you must provide all the prescribed information by the closing date and in the format specified.

2.2 Submission instructions

Your submission must be clear, concise and complete and should only include information that is necessary to respond effectively to this RFP. Please note that you may be marked down or excluded from the procurement exercise if your submission contains any ambiguities or lacks clarity.

Your proposal must include the following documents (annexes of [Part 5](#) of the RFP):

- a) Bidder's Letter of Application (Annex 1);
- b) Conflict of Interest Declaration (Annex 2);
- c) Information about the bidder and Due diligence (Annex 3);
- d) Technical proposal submission form (Annex4);
- e) Financial proposal submission form (Annex 5).

Your proposal must be submitted in **two separate emails**.

You must submit your **Technical proposal** (Annexes 1 to 4 and all their supporting documents) in English as an attachment to one email. No financial information may appear in the technical proposal.

You must submit your **Financial proposal** (Annex 5) in a separate email. All prices in the proposal must be presented in USD. Your Financial proposal is to be password protected. SPC will request the password in the event that it is required.

Both emails are to be sent to procurement@spc.int with the subject line of your email as: **Submission RFP24-6200**.

Your proposal must be received no later than **24/03/2024 by 11pm New Caledonia Time (GMT +11)**. Only one bid per bidder is permitted.

SPC will send a formal acknowledgement to each proposal received before the deadline.

SPC reserves the right to exclude from consideration any proposal not received by the deadline, with incomplete information or in incorrect form.

2.3 Clarifications

You may submit questions or seek clarifications on any issue relating to this RFP. The questions are to be submitted in writing to procurement@spc.int with the subject line: **Clarification RFP24-6200**. The deadline for submission of clarifications is **14/03/2024 by 11pm New Caledonia Time (GMT +11)**.

Details will be kept of any communications between SPC and bidders. This assists SPC to ensure transparency

of the procurement process. While SPC prefers written communication in the RFP process, at any point where there is phone call or other conversation, SPC will keep a record or a file note of the exchange with prospective bidders.

2.4 Evaluation

Validity

Each proposal will be assessed for compliance with the submission requirements by the Bids Opening Committee. At this stage, basic due diligence will also be undertaken.

To assist in the examination, evaluation and comparison of proposals, SPC may ask the bidder for clarification of its proposal or additional information. The request for clarification will be in writing.

Technical

All valid proposals will be assessed against the technical evaluation criteria set out in Part 4. The criteria are provided with weighted scores according to the relative importance of each. SPC will not change the evaluation criteria set out in the RFP at any stage of the procurement process. Any changes in the evaluation criteria will result in the RFP process being re-issued.

Bidders are expected to familiarise themselves with local conditions and take these into account in preparing their proposal. Where minimum qualifications are set as specific evaluation criteria (which may include educational qualification, professional accreditation or certification, licensing, experience and expertise), proposals submitted must necessarily meet these criteria.

Shortlisted bidder's presentation

Bidders that are short-listed during the RFP evaluation process shall be required to conduct a presentation to, and respond to queries of, SPC's Procurement Technical Evaluation Committee. The bidders will be provided an opportunity to provide an overview of the operational aspect of the services they are proposing.

Financial

Any bids that pass the minimum technical evaluation requirements will pass onto financial evaluation.

During the financial evaluation, if there is a discrepancy between the unit price and the total price, the lower price shall prevail. If there is a discrepancy between words and figures the amount in words will prevail.

The total cost of the proposal must be submitted inclusive of taxes in accordance with the applicable legislation, and is not subject to revision.

2.5 Contract award

SPC may award the contract once the Procurement Committee has determined that a bidder has met the prescribed requirements and the bidder's proposal has been determined to be the most responsive to the RFP documents, provide the best value for money and best serve the interests of SPC.

SPC's [*General Terms and Conditions of Contract*](#) will apply to any contracts awarded under this RFP, unless otherwise agreed. Any requested changes to the General Terms and Conditions of Contract must be foreshadowed in the submission.

The award of the contract will be made by contract signed and dated by both parties.

2.6 Key dates

Please see the proposed procurement timetable in the table below. This timetable is intended as a guide only and while SPC does not intend to depart from the timetable, it reserves the right to do so at any stage.

STAGE	DATE
RFP advertised	21/02/2024
Deadline for seeking clarification	14/03/2024
RFP Closing Date	24/03/2024
Award of Contract	15/04/2024
Commencement of Contract	6/05/2024
Conclusion of Contract	28/08/2024

2.7 Legal and compliance

Child and vulnerable adult protection: SPC is committed to the well-being of children and vulnerable adults. All SPC contractors are required to commit to the principles of SPC's Child and Vulnerable Adult Protection Policy ([XI.G Manual of Staff Policies](#)). Breach of this requirement can result in SPC terminating any contract with a successful bidder. Any allegations of potential misconduct in relation to this RFP involving children or vulnerable adults should be sent to complaints@spc.int.

Confidentiality: Unless otherwise agreed by SPC in advance or where the contents of the RFP are already in the public domain when **shared** with the bidder, bidders shall at all times treat the contents of the RFP and any related documents as confidential. SPC will also treat the information it receives from the bidders as confidential.

Conflict of interest: Bidders must take all necessary measures to prevent any situation of conflict of interest. You must notify SPC in writing as soon as possible of any situation that could constitute a conflict of interest during the RFP process. If you have any familial connection with SPC staff, this must be declared, and approval will then be sought for you to engage in the RFP process. Breach of this requirement can result in the exclusion of the bidder from the RFP process or in SPC terminating any contract with a successful bidder.

Cost of preparation of proposals: Under no circumstances will SPC be liable for any proposal submission costs, expenditure, work or effort that you may incur in relation to your provision of a proposal (including if the procurement process is terminated or amended by SPC).

Currency, validity, duties, taxes: Unless specifically otherwise requested, all proposals should be in USD and must be net of any direct or indirect taxes and duties and shall remain valid for 120 days from the closing date. The successful bidder is bound by their proposal for a further 60 days following notification they are the preferred bidder so that the contract may be awarded. No price variation due to escalation, inflation, fluctuation in exchange rates, or any other market factors shall be accepted at any time during this period.

Eligibility: Bidders are required to disclose to SPC whether they are subject to any sanction or temporary suspension imposed by any international organisation, or whether they are subject to bankruptcy proceedings. You may not be bankrupt or suspended, debarred, or otherwise identified as ineligible by any international organisation. Failure to disclose such information may result in debarment and termination of any contract issued to the bidder by SPC.

Fraud and corruption: SPC has zero tolerance for fraud and corruption. All contractors have an obligation to report potential fraud and corruption. Breach of this requirement can result in the exclusion of the bidder from the RFP process or in SPC terminating any contract with a successful bidder. Allegations of potential misconduct by an SPC staff member or contractor involving fraud or corruption can be sent to complaints@spc.int.

Good faith: The information in this RFP is provided by SPC in good faith. No representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability will be

accepted by SPC in relation to the adequacy, accuracy, completeness or reasonableness of this RFP or any information provided by SPC in relation to this RFP.

Modifications: Any clarifications, corrections or modifications will be published on the SPC website prior to deadline. In the event a bidder has submitted a bid before the clarification, correction or modification, the bidder will be informed and may modify the bid. The modified bid will still need to be received before the deadline.

No offer of contract or invitation to contract: This RFP is not an offer to contract or an invitation by SPC to enter into a contract with you.

Privacy: The bidder is to comply with the requirements of applicable legislation and regulatory requirements in force for the use of personal data that is disclosed for the purposes of this RFP. SPC will handle any personal information it receives under the RFP in line with its [Privacy Policy](#), and the [Guidelines for handling personal information of bidders and grantees](#).

Right to amend, seek clarity, withdraw, not award: SPC reserves the right to: (1) amend, add to or withdraw all or any part of this RFP at any time, or to re-invite bids on the same or any alternative basis; (2) seek clarification or documents in respect of any bidder's submission; (3) choose not to award a contract as a result of this RFP; (4) make whatever changes it sees fit to the timetable, structure or content of the procurement process, depending on approvals processes or for any other reason. Please note that while SPC will not change the evaluation criteria set out in the RFP without the RFP process being re-issued, SPC does reserve the right at the time of award of contract to vary the quantity of services and goods specified in the RFP and to accept or reject any proposal at any time prior to award of the contract without incurring any liability to the affected bidder or any obligation to inform the affected bidder/s of the grounds for SPC's action.

Right to disqualify: SPC reserves the right to disqualify: (1) any bidder that does not submit a proposal in accordance with the instructions in this RFP; (2) any bidder that misrepresents information to SPC; (3) any bidder that directly or indirectly canvasses any SPC employee concerning the award of a contract.

Use of material: Bidders shall not use the contents of the RFP or any related material for any purpose other than for the purpose of considering submitting, or submitting, a bid to SPC.

Warranty, representation, assurance, undertaking: The bidder acknowledges and agrees that no person has any authority to give any warranty, representation, assurance or undertaking on behalf of SPC in connection with any contract which may (or may not) follow on from this RFP process.

2.8 Complaints process

Bidders that consider they were not treated fairly during any SPC procurement process may lodge a protest. The protest should be addressed to complaints@spc.int. The bidder must provide the following information: (1) full contact details; (2) details of the relevant procurement; (3) reasons for the protest, including how the alleged behaviour negatively impacted the bidder; (4) copies of any documents supporting grounds for protest; (5) the relief that is sought.

Part 3: Terms of Reference

Background/context

Background

Niue is a small Pacific Island Country with an average height of 23 m above sea level. There is no surface water and the country relies upon groundwater resources and rain catchment. A karstic limestone aquifer provides nearly all of Niue's water and is a fragile freshwater lens estimated to be 35–40 m thick¹ with a total volume of 7 billion m³, reliant on rainfall for recharge.

The freshwater lens is at high risk of water quality deterioration from saltwater contamination from over-abstraction and impacts from drought. In addition, freshwater lens is vulnerable to contamination from inappropriate land-use activities especially close to the well heads.

Climate change can exacerbate existing threats to coastal aquifers through impacts such as sea-level rise, storm surge, increased climate variability and climate extremes. The fragility of coastal fresh groundwater systems necessitates careful management and protection to ensure their long-term integrity and their role in climate change adaptation strategies and improved water security.

Context

To support the national vision² of a “safer, more resilient Niue to impacts of climate change and towards achieving sustainable livelihood”, the country wishes to access Green Climate Fund support to upgrade their main water supply system, improve long-term water security and build the capacity of communities to manage risks. However, there is currently limited data available to inform project design, particularly regarding the impacts of climate change on water security in Niue. Available information is outdated and does not provide the necessary detail or up-to-date information to support coordinated and effective water sector governance to respond to the impacts of climate change. This is part two of a two-phase consultancy. Phase I (a separate consultancy previously advertised) will provide the necessary background information to further inform the direction of Phase II (this phase). Phase One includes the provision of a literature review, a WASH needs assessment, and a vulnerability and risk assessment framework.

Background

Niue is a small Pacific Island Country with an average height of 23 m above sea level. There is no surface water and the country relies upon groundwater resources and rain catchment. A karstic limestone aquifer provides nearly all of Niue's water and is a fragile freshwater lens estimated to be 35–40 m thick³ with a total volume of 7 billion m³, reliant on rainfall for recharge.

² [Government of Niue. 2009. National Climate Change Policy.](#)

³ [SOPAC Secretariat and GWP Consultants. 2008. Niue Technical Report. Groundwater Resources Investigation on Niue Island.](#)

The freshwater lens is at high risk of water quality deterioration from saltwater contamination from over-abstraction and impacts from drought. In addition, freshwater lens is vulnerable to contamination from inappropriate land-use activities especially close to the well heads.

Climate change can exacerbate existing threats to coastal aquifers through impacts such as sea-level rise, storm surge, increased climate variability and climate extremes. The fragility of coastal fresh groundwater systems necessitates careful management and protection to ensure their long-term integrity and their role in climate change adaptation strategies and improved water security.

Context

To support the national vision⁴ of a “safer, more resilient Niue to impacts of climate change and towards achieving sustainable livelihood”, the country wishes to access Green Climate Fund support to upgrade their main water supply system, improve long-term water security and build the capacity of communities to manage risks. However, there is currently limited data available to inform project design, particularly regarding the impacts of climate change on water security in Niue. Available information is outdated and does not provide the necessary detail or up-to-date information to support coordinated and effective water sector governance to respond to the impacts of climate change. This is part two of a two-phase consultancy. Phase I (a separate consultancy previously advertised) will provide the necessary background information to further inform the direction of Phase II (this phase). Phase One includes the provision of a literature review, a WASH needs assessment, and a vulnerability and risk assessment framework.

Objective:

The objective of Phase Two is to provide the research and assessments necessary to inform recommendations for interventions into water security and infrastructure to support a more resilient and sustainable Niue by:

1. Identifying the extent, sustainability, and threats to groundwater resources.
2. Providing options for improved aquifer protection and management, integrating available data on climate projections.

The process will involve the participation of key stakeholders including the Project Management Coordination Unit (Niue’s Designated Authority), Ministry of Infrastructure, Department of Meteorological Services, Department of Environment, Niue Disaster Management Office. The contractor will be required to conduct the activities and produce the outputs described below.

Activities:

Activity 1. Groundwater resource and water quality assessment.

Provide an updated investigation into the geometry of the freshwater lens and the geological regime. Estimate the island’s sustainable water yield and provide a baseline water quality

⁴ [Government of Niue. 2009. National Climate Change Policy.](#)

assessment.

Activity 2. Aquifer vulnerability and risk assessment.

Identify key risks of future contamination and water degradation, taking into consideration the impact of climate change and human activity.

Activity 3. Water infrastructure recommendation

Recommend a range of suitable water infrastructure interventions based on the outcomes of the above activities. Provide a high-level capacity baseline and recommendation for further feasibility studies.

Purpose, objectives, scope of services

Activity 1. Groundwater resource assessment and water quality assessment

- 1.1 Building on the outputs of the Phase I, Activity 1, the Consultant will undertake a groundwater resource assessment to increase the understanding of the hydrogeology of the aquifer. Special consideration should be placed on the impact of climate change to the current dynamics of the groundwater resource in Niue. This will likely include determination of freshwater lens geometry, and hydrogeological analysis, including recharge estimation, sustainable yield, and storage (rainfall analysis, recharge estimation, sustainable yield estimation, drought storage).
- 1.2 Gather baseline water quality through, consultation with key stakeholders, chemical analyses of water, biological tests, and other means, as necessary.

Location: Home-based and Niue

Deliverable: Groundwater resource assessment and water quality assessment

Activity 2. Aquifer vulnerability and risk assessment

Using the vulnerability and risk assessment framework developed in Phase I:

- 2.1 The Consultant will identify potential sources of contamination and threats to the freshwater lens, including salt-water intrusion and human-induced contamination. The Consultant will use surveys and stakeholder consultations, as well as the outputs of Activity 1 to produce a comprehensive risk profile.
- 2.2 The Consultant will assess the impacts of climate projections on aquifer recharge, water availability, and water quality. Integrating the above data (and outputs of Phase I) and climate projections, the Consultant should determine the sustainability of the freshwater lens, identifying areas of vulnerability, and mechanisms for groundwater deterioration. Investigations should consider how the impacts of climate change, such as sea level rise, increases in extreme weather events, and drought, may magnify or alter identified risks, impacting the long-term sustainability of water resources in Niue.

Location: Home-based and Niue.

Deliverable: Climate-linked vulnerability risk assessment.

Activity 3. Recommendations on climate-resilient interventions

- 3.1 Based on the preceding Activities and the outputs of Phase One, the Consultant should identify potential opportunities for climate-resilient investments into Niue's water resource

management and infrastructure. This should include a high-level overview of the capacity baseline required to effectively implement and manage these interventions. The Consultant should make recommendations on which interventions may be suitable for Niue and where future feasibility studies would be required. These recommendations should take into account the GCF investment criteria to support a case for a concept note to address the climate change impacts identified.

Location: Home-based.

Deliverable: Intervention recommendation.

Timelines

The consultancy is expected to require 35–40 days' work to be delivered over a period of 4–5 months. This includes 1–2 weeks of fieldwork in Niue. The target date of commencement of the work is 6 May 2024 and the expected completion date is no later than 28 August 2024. The start date may shift depending on the delivery on Phase I. If necessary, the consultancy period may shift by one month to accommodate any unexpected delays preventing the commencement on the target date. The target deadline for the delivery of each expected output is presented in section F.

Reporting and contracting arrangements.

The consultancy will be managed by SPC. Progress reporting will be monitored via the delivery of the Consultancy Outputs as detailed in Section B. Additional progress reporting may be required by the consultancy manager as needed.

The Contractor is expected to interact and collaborate with Department of Utilities (DOU), Ministry of Infrastructure (MOI) as well as SPC, SPREP, and other key stakeholders in Niue (for example the Department of Meteorological Services and Department of Environment) in the course of this work. It is expected that these institutions and stakeholders will have active roles in providing data and information necessary for the delivery of the work.

The Contractor is expected to be home-based with site visits to Niue or home-based with the employ of a local contractor(s) to undertake the field work. The Contractor must clearly demonstrate in the application how their choice of either site visits or local contractor(s) will enable them to produce the deliverable(s) to the required standard. The application should include any financial implications of the choice of modality.

Skills and qualifications

Niue seeks to engage a consultant or consultancy team with groundwater modelling expertise. Skills required are as follows:

- Tertiary degree or equivalent in hydrogeology or similar discipline.
- At least 10 years' experience in hydrogeological assessment of groundwater in small islands and coastal areas. Experience in Pacific Small Island States would be an advantage.
- Knowledge of climate change impacts on groundwater in island and coastal areas.
- Excellent analytical skills.
- Experience with multi-stakeholder participatory and consultative approaches especially in Pacific SIDS.

- Excellent interpersonal and communication skills and experience in a multicultural Pacific Island environment.
- Excellent English communication skills (oral and written).
- Ability to work independently and/or in a small team and provide deliverables in a timely manner.

Scope of Bid Price and Schedule of Payments

The bid should contain a total lumpsum amount for an estimated 35–40 working days. The bid should provide a breakdown of the total cost including professional fees, travel costs, per diems and any other costs associated with producing the deliverables to the requisite standard. Payments will be made based on the milestones and estimated due dates provided below. Terms of payment shall be in accordance with the provisions of Article 10 of the General Conditions of the SPC General Conditions.

The quote should confirm the acceptance of the payment terms stated below or provide an alternative proposal.

Milestone/deliverables	Deadline	% payment
Draft scoping studies for groundwater resource assessment and water quality received	01/07/2024	35%
Finalised groundwater resource assessment and water quality assessment received	22/07/2024	30%
Climate-linked vulnerability risk assessment received	14/08/2024	15%
Intervention recommendations received	22/08/2024	10%
Issuance of Certificate of Acceptance for all deliverables	28/08/2024	10%
TOTAL		100%

Annexes to the Terms of Reference

Part 4: PROPOSAL EVALUATION MATRIX

4.1 Evaluation criteria & Score Weight

A two-stage procedure will be utilised to evaluate the proposals, with evaluation of the **Technical proposal** being completed prior to any **Financial proposal** being opened and compared.

The competencies which will be evaluated are detailed in [Part 3](#).

The evaluation matrix below also reflects the obtainable score specified for each evaluation criterion (technical requirement) which indicates the relative significance or weight of the items in the overall evaluation process.

The technical component, which has a total possible value of 700 points, will be evaluated using the following criteria.

[Insert other relevant instructions about the proposal evaluation matrix]

Evaluation criteria	Score Weight (%)	Points obtainable
Mandatory requirements		
1) Declaration of Conflict of Interest 2) A bid / proposal comprising: <ul style="list-style-type: none"> • A cover letter • A description of the proposed service, approach and methodology • Evidence of prior work of a similar nature • A CV or professional profile 3) Financial quote in USD based on the schedule provided in Section F		Mandatory requirements. Bidders will be disqualified if any of the requirements are not met
Technical requirements		
Quality of the offer: Overall presentation and quality of the technical proposal and supporting documentation.	10%	10
Skills and qualifications: A relevant qualification in the field of climate change, environment, hydrogeology, or related work. Fluency in written English.	10%	10
Work experience: At least 5 years of demonstrated experience in hydrogeological assessment of groundwater in small islands and coastal areas. Experience in Pacific Small Islands would be an advantage. Experience with multi-stakeholder participatory and consultative approaches especially in Pacific SIDS.	30%	30
Proposed approach and methodology: Appropriateness of the actions proposed including the means of implementation and how the methodology will result in the expected deliverables.	20%	20
Financial proposal: Value for money demonstrated in the financial proposal.	30%	30
Total Score	100%	100

4.2 Financial evaluation

The financial component of the proposal will be scored on the basis of overall costs for the delivery of the services and financial incentives and benefits provided to SPC. The lowest financial proposal will be awarded maximum 300 points and other financial offers and incentives will be awarded points as per the formula below:

$$\text{Financial Proposal score} = (\text{Lowest Price} / \text{Price under consideration}) \times 300$$

Part 5: PROPOSAL SUBMISSION FORMS

Annex 1: BIDDER'S LETTER OF APPLICATION

Dear Sir /Madam:

Having examined the Solicitation Documents, the receipt of which is hereby duly acknowledged, we the undersigned, offer to supply the required services for the sum as may be ascertained in accordance with the Financial Proposal attached herewith and made part of this proposal.

We acknowledge that:

- SPC may exercise any of its rights set out in the Request for Proposal documents, at any time;
- The statements, opinions, projections, forecasts or other information contained in the Request for Proposal documents may change;
- The Request for Proposal documents are a summary only of SPC's requirements and is not intended to be a comprehensive description of them;
- Neither the lodgement of the Request for Proposal documents nor the acceptance of any tender nor any agreement made subsequent to the Request for Proposal documents will imply any representation from or on behalf of SPC that there has been no material change since the date of the Request for Proposal documents, or since the date as at which any information contained in the Request for Proposal documents is stated to be applicable;
- Excepted as required by law and only to the extent so required, neither SPC, nor its respective officers, employees, advisers or agents will in any way be liable to any person or body for any loss, damage, cost or expense of any nature arising in any way out of or in connection with any representations, opinions, projections, forecasts or other statements, actual or implied, contained in or omitted from the Request for Proposal documents.

We undertake, if our proposal is accepted, to commence and complete delivery of all items in the contract within the time frame stipulated.

We understand that you are not bound to accept any proposal you may receive and that a binding contract would result only after final negotiations are concluded on the basis of the Technical and Financial Components proposed.

Annex 2: CONFLICT OF INTEREST DECLARATION

INSTRUCTIONS TO BIDDERS

What is a conflict of interest?

A conflict of interest may arise from economic or commercial interests, political, trade union or national affinities, family, cultural or sentimental ties, or **any other type of relationship or common interest between the bidder and any person connected with the contracting authority** (SPC staff member, consultant or any other expert or collaborator mandated by SPC).

Always declare a conflict

The existence of a potential or apparent conflict of interest does not necessarily prevent the bidder concerned from taking part in a tender process. **However, the declaration of the existence of such a conflict by the persons concerned is essential and allows SPC to take appropriate measures to mitigate it and prevent the associated risks.**

Bidders are therefore invited to declare any situation, fact or link which, to their knowledge, could generate a real, potential or apparent conflict of interest.

Declaration at any time

Conflicts of interest may arise at any time during the procurement process or the implementation of a contract (e.g. new partner in the project) or as a result of a change in personal life (e.g. marriage, inheritance, financial transaction, creation of a company). If such a relationship is found and could be perceived by a reasonable person as likely to influence a decision, a declaration of the situation is necessary. In case of doubt, a conflict situation must be declared.

Declaration for any person involved

A declaration must be completed for each person involved in the tender (principal representative of the bidder, possible subcontractors, consultant, etc.)

Failure

Failing to declare a potential conflict of interest may result in the bidder being refused a contract or placed on SPC's list of non-responsible suppliers.

DECLARATION

I, the undersigned, *[name of the representative of the Bidder]*, acting in the name and on behalf of the company *[name of the company]*, declare that:

<input type="checkbox"/>	To my knowledge, I am not in a conflict-of-interest situation
<input type="checkbox"/>	There is a potential conflict of interest with regard to my <i>[Choose an item]</i> . relationship with <i>[name of the person concerned]</i> in his or her capacity as <i>position/role/personal or family link with the person concerned</i> , although, to the best of my knowledge, this person is not directly or indirectly involved in any stage of the procurement process
<input type="checkbox"/>	I may be in a conflict of interest with regard to my <i>[Choose an item]</i> relationship with <i>[name of the person concerned]</i> in his or her capacity as <i>position/role/personal or family link with the person concerned</i> , as this person is, to the best of my knowledge, directly or indirectly linked to the procurement process
<input type="checkbox"/>	To my knowledge, there is another situation that could potentially constitute a conflict of interest: <i>[Describe the situation that may constitute a conflict of interest]</i>

In addition, I undertake to:

- declare, without delay, to SPC any situation that constitutes a potential conflict of interest or is likely to lead to a conflict-of-interest;
- not to grant, seek, obtain or accept any advantage, whether financial or in kind, to or from any person where such advantage constitutes an unfair practice or an attempt at fraud or corruption, directly or indirectly, or constitutes a gratuity or reward related to the award of the contract;
- to provide accurate, truthful and complete information to SPC in connection with this procurement process.

I acknowledge that I and/or my company and/or my business partners who are jointly and severally bidding on the RFP *[SPC Reference]* may be subject to sanctions such as being placed on SPC's list of non-responsible vendors, if it is established that false statements have been made or false information has been provided.
